

Epson Original Cartridge for 73 N Series and 141 N Series type of Cartridges

The **Ink Capacity inside the original Epson cartridge was not fully installed**. For more detail information refer to the picture shown below as proof and evidence. In doubt User can ply open the Original Epson cartridge (without Label sticker) after used as “*Empty*” for confirmation.

The purpose and intention of this message is to let the **User understand, aware, acknowledge and to stop whatsoever rumours created on Nippon-ink cartridge been used in the Epson’s printer**. Example, Nippon-ink cartridge might damage the printer and void warranty issue etc.

Epson 73 N Series – External & Internal

Epson 141 N Series – External & Internal

Nippon-ink stated clearly to User – In case of Void Warranty by Original, User can launch the complaint and feedback to CASE and/or MTI directly for action and investigation.

The printer **ink threshold level (Ink cut-off level) was pre-determined and set by the programmer** of the printer manufacturer. The **Chip set** on the cartridge is **act as an entry level to indicate the ink level** inside the cartridge by individual Colour Bar (Black, Cyan, Magenta and Yellow). Example, if the programmer set the ink threshold level (ink cut-off level) at 12 ml. Even when Nippon-ink cartridge capacity is 15 ml the excess (3 ml) ink unable to use due to the **program will stop to operate once the level reaches 12 ml**. This does not indicate Nippon-ink cartridge is faulty – “*False Alarm*”.

Nippon-ink ensure User does not “*Waste and been Short-changed*” by making the Chip set “*Refillable*”. User can use Nippon-ink universal refill ink kit set to refill, reuse, recycle and reduce waste. This help to **protect the environment by saving the Earth and enjoy Cost Saving**. Example, **Epson Original 73 N Black – Retail at \$16 to \$18** depend on location and purchase. **Nippon-ink Refill Kit Set Black, Retail at \$15 for 3 tubes per pack. Each tube can refill twice per cartridge, therefore \$15 / 6 for each Black refill = \$2.50. Actual Cost Saving from using Refill Ink Kit Set - \$16 / \$2.50 = 6.4 times or \$18 / \$2.50 = 7.2 times**. The above calculation indicated the saving is 6 to 7 times compare in using Original cartridges.

How to Refill Nippon-ink Inkjet Cartridges? Please refer to the picture below.

Remove Top Label

Remove Rubber Stopper

Insert Needle into the Hole and Pump slowly
